

DMCC Crypto Centre and TDeFi Launch Accelerator Programme to Support Growth of Web3 and Blockchain Businesses in Dubai

- *New accelerator programme adds new stream to DMCC's comprehensive web3 and blockchain ecosystem – the DMCC Crypto Centre*
- *The partnership is set to attract new wave of crypto firms in Dubai*

24 February 2023

DMCC – the world's flagship free zone and Government of Dubai Authority on commodities trade and enterprise – and TDeFi – the global Web3 incubator and consultancy company – have partnered to offer a new accelerator programme for Web3 and blockchain companies at the DMCC Crypto Centre in Dubai.

Offering mentorship and sessions on a range of topics related to crypto and scaling a business, the accelerator programme will attract a new wave of crypto firms to Dubai. The DMCC Crypto Centre is currently home to over 550 members, making it the largest concentration of Web3 and blockchain companies in the region.

The month-long programme will run for a minimum of two editions over the next 12 months, with interested companies receiving priority guidance and services from DMCC to formally set up at the Crypto Centre.

At the end of each cohort, TDeFi will also select a handful of startups to be part of its in-depth incubation programme, providing them with access to additional TDeFi advisory services and its growing ecosystem.

Ahmed Bin Sulayem, Executive Chairman and Chief Executive Officer, DMCC, said: *“Supporting Web3 and blockchain businesses is a key priority for DMCC as we build on the success that the Crypto Centre has seen since its launch. By providing everything crypto businesses and entrepreneurs need to thrive, we have emphatically positioned Dubai as a leading hub for crypto. This latest partnership with TDeFi adds yet another string to our bow and will help emerging crypto businesses bring their ideas to light in Dubai.”*

Gaurav Dubey, CEO, TDeFi, added: *“Our extensive programme comprises various modules that will support entrepreneurs and businesses operating within the crypto space, from ideation to scaling their start-ups. Through its Crypto Centre, DMCC has established a leading ecosystem of Web3 and blockchain businesses, and so there is no better place for us to operate our latest accelerator programme. Through this new partnership, we are looking forward to unlocking some truly game-changing projects in the Web3 space.”*

The DMCC Crypto Centre is a comprehensive ecosystem for companies that develop web3 and blockchain technologies, and associated value-added services, providing everything that crypto businesses and entrepreneurs need to set up and scale their operations.

About DMCC

Headquartered in Dubai, DMCC is the world's most interconnected Free Zone, and the leading trade and enterprise hub for commodities. Whether developing vibrant neighbourhoods with world-class property like Jumeirah Lakes Towers and the much-anticipated Uptown Dubai, or delivering high performance business services, DMCC provides everything its dynamic community needs to live, work and thrive. Made for Trade, DMCC is proud to sustain and grow Dubai's position as the place to be for global trade today and long into the future.
